

Workflow WEDNESDAYS

Max My Sync

Topic: Maximize Med Sync During Flu Vaccine Season

Presenters: Tiffany Capps, CPhT, Operations Manager at Galloway-Sands Pharmacy & Weston Humphreys, RPhT, Chief Operations Officer at Tyson Drugs Inc

Best Practice to Maximize Med Sync

Use Med Sync to enhance patient care and improve workflow during the busier seasons - like flu vaccine season. Below are resources discussed in the Flip the Pharmacy Max My Sync webinar. Click [HERE](#) to watch the recorded webinar.

Example 'Scripts' to Incorporate on the Sync Call

"While I have you, I wanted to mention that flu season is right around the corner. Have you had your flu vaccination this year?"

"We have the flu vaccine here in the pharmacy. It's quick and easy. Would you like to schedule an appointment for the same day you pick up your prescriptions?"

"Don't wait too late, now is the time to get your flu vaccine. I can help schedule you an appointment for the same day you pick up your prescriptions."

Influenza Vaccine Information Statement (VIS)

Current Influenza VIS can be found on the CDC website. Click [HERE](#) to access, bookmark, download, and print VIS for confirmed vaccine appointments.

Include Flu Vaccine Bag Stuffers with Sync Orders

See [Page 2](#) for a template [Flu Vaccine Bag Stuffer](#). This works as a reminder to patients and to support staff to offer flu vaccination at sync pick-up.
